

CLINiC

CLINiC-C-12X27-B01

The Clinical Care Device (CLINiC™) is a purpose-built telehealth consultation device built for Cisco environments, providing an intuitive icon-driven interface to connect providers and patients across a variety of form factors and use cases. The CLINiC supports synchronous audio, video and content sharing (EMR, EHR, scopes/peripherals).

FEATURES & BENEFITS

Flexible Mounting Options

Perfect for deployments where space is at a premium. The flexible design allows you to select the best solution to meet your clinical use case, physical environment and budget instead of the traditional one size fits all approach.

- Integrate with a telehealth cart
- Integrate within a new cart
- Mount on wall for observation
- Wall mount on an articulating arm
- Use as a standalone unit anywhere using a desk mount

Easy Deployment

The CLINiC leverages a VESA Mounting Interface, allowing installation and replacement within minutes in almost any environment. The simplistic design purposefully enables ease of installation and reduces both capital acquisition and operating expenses.

Intuitive Interface

Standardized user interface, purpose built for a medical environment and designed for ease of use. Significantly reduces training time and increases end user adoption.

CLINiC Control Panel

IRONCARE MANAGED TELEHEALTH SERVICES – WARRANTY, MONITORING AND MAINTENANCE

IronCare™ Managed Telehealth services for your CLINiC, MedView and MEDiC products are designed to ensure maximum service availability and user satisfaction while minimizing IT support efforts. Specific services include:

Advance Replacement Warranty (ARW) – extended warranty featuring 2nd day replacement, initiated prior to return of the customer unit.

IronCare Monitoring – continuous monitoring of network and unit behavior to address potential issues before they affect the user experience.

IronCare Maintenance – ensures updates and patches are deployed to avoid security concerns and ensure optimal user experience.

IronCare Deployment – on-site installation/replacement services to relieve IT staff and rapidly and reliably deploy units.

IronCare Cloud Video – a secure, high quality platform for rapidly enabling video consultations between Iron Bow endpoints, video conference rooms, patients and any other standards-based video endpoint.
