**MEDVIEW 30X**

**MEDVIEW-C-30X-A01**

The MedView™ 30X is designed to deliver enterprise telehealth capabilities to each patient room with unparalleled picture quality, zoom capability and mounting flexibility. The MedView is designed to work in conjunction with existing in-room patient television or display, with inbuilt capabilities for direct integration with infotainment systems. Specific applications include:

- Patient Monitoring/E-sitting
- Multi-speciality Visits
- General Consultations
- Tele ICU
- E-Rounding
- Virtual Family Visits
- Care Coordination
- Patient Education

MedView can be used in hospital settings as well as skilled nursing facilities, long-term care facilities, urgent care facilities, ambulatory surgery centers, physician practice offices and countless other care settings.

**IMPROVE OUTCOMES IN COMPLEX CARE**

MedView transforms health systems’ care delivery models to realize the benefits of virtual care.

- Engage patient and family for care decisions
- Facilitate multispecialty, multidisciplinary clinical collaboration
- Increase provider efficiencies through ease of use and easy access to patients
- Optimize access to hospital resources (care coordinators, case managers and other staff)

**FEATURES**

- Designed to function with existing infotainment displays
  - Incoming video calls receive priority over infotainment content
- 30X optical/12X digital PTZ camera
- Integrated quad infra-red illumination designed for low light patient monitoring
- Integrated audio with echo cancelling
- Camera privacy mode when not in active call
- Optional ceiling microphone for improved patient voice capture
IRONCARE MANAGED TELEHEALTH SERVICES — WARRANTY, MONITORING AND MAINTENANCE

IronCare™ Managed Telehealth services for your CLINiC, MedView and MEDiC products are designed to ensure maximum service availability and user satisfaction while minimizing IT support efforts. Specific services include:

Advance Replacement Warranty (ARW) – extended warranty featuring 2nd day replacement, initiated prior to return of the customer unit.
IronCare Monitoring – continuous monitoring of network and unit behavior to address potential issues before they affect the user experience.
IronCare Maintenance – ensures updates and patches are deployed to avoid security concerns and ensure optimal user experience.
IronCare Deployment – on-site installation/replacement services to relieve IT staff and rapidly and reliably deploy units.
IronCare Cloud Video – a secure, high quality platform for rapidly enabling video consultations between Iron Bow endpoints, video conference rooms, patients and any other standards-based video endpoint.
